

Rebuilding Haiti Through the Empowerment of Girls

It was 10 years ago on January 12, 2010 that a 7.0 magnitude earthquake shook the island of Haiti. In the aftermath, 200,000 people died and 1.5 million left homeless. Homes, hospitals, and schools crumbled.

Lives changed in Haiti, ours did too, as we responded to a need in Leogane, Haiti. In the past years, we have been blessed to know many Haitians by name, our 10 girl-students, their families, the Sisters of the Companions of Jesus, the faculty of Annunciation, Our Lady of the Angels and Coeur de Marie Schools.

This past year the people of Haiti faced another devastating experience with protests and demonstrations against government policies and corruption. The unrest forced hospitals, schools, and businesses to shut down across the country for months. Only recently are classes resuming for students. This reality has significantly impacted the students, families, Sisters and teachers at our schools in Leogane.

“Schools raise a nation.” This quote reminds us of the critical importance of education. They represent the collective good of a nation allowing individuals to “educate, create, cooperate, produce, and prosper.” Education is the “engine of socio-economic development” in a country and beyond.

Knowing this drives us again to commit to educate 10 girls in grades 7-8-9 in Leogane, Haiti. You are invited to be part of their lives and the lives of their families at this critical time in Haiti through prayer and donations.
